

# HOW TO FILL A BAG IN BOX 5 OR 10 LITROS

Practical | Effective | Economic

## Composed by:

- > 1 Stainless Steel Table
- > 1 Plastic Funnel With Filter
- > 1 Graduated Pitcher 5 Lt, Plastic

**IMPORTANT:** With this procedure introduces an exact measurement without getting air bubbles.

①

> Extend the bag on the table filling removing the tap.

②

> One person holds the hopper to the bag while another pours the graduated pitcher.

③

> Then a person who poured the wine, hold the two top edges of the bag stretching them, lifting or lowering the wine to be flush with upper ring in order to be free of air.

④

> The person who held the funnel applies tightening the tap even get two clicks, getting ready to put inside the box.
